With Great Power Comes Great Labeling

Data leaks are real

1. **12-02-2026, NL** – *Telecom (Odido)*: Grootchalige hack via klantcontact-systeem; ~6,2 miljoen accounts getroffen. Persoonsgegevens (naam, telefoon, e-mail, geboortedatum, IBAN, ID-nummers) buitgemaakt.
2. **03-07-2025, NL** – *Gezondheidszorg (Eurofins lab)*: Cyberaanval trof een laboratorium voor cervix-onderzoek; ~485 000 screeningdossiers gestolen (namen, adressen, geboortedata, BSN's, testresultaten).
3. **15-01-2026, EU** – *Reizen (Eurail)*: Datainbreuk bij spoorpas-aanbieder; alle houders van een Eurail/Interrail-pas en reserveringen getroffen. Gegevens omvatten ID- en contactinfo, paspoortgegevens, medische gegevens en bank-IBAN's.
4. **06-08-2025, NL/EU** – *Luchtvaart (KLM/Air France)*: Datalek via extern klantenserviceplatform. Klantnamen, contactgegevens en Flying Blue-lidnummers zijn mogelijk ingezien; geen financiële of paspoortgegevens gelekt.
5. **12-12-2025, FR** – *Overheid (Binnenlandse Zaken)*: Hack op de e-mailsystemen van het Franse ministerie van Binnenlandse Zaken. Aanvallers kregen toegang tot enkele documenten; de impact (welk data precies) wordt nog onderzocht.
6. **28-10-2025, EU** – *Reisbranche (OneFly)*: Onbeveiligde Elasticsearch-exposure bij reistech-bedrijf OneFly. Duizenden passagiersrecords lekten (namen, geboortedata, vluchtgegevens) inclusief volledige creditcardinformatie.
7. **06-02-2026, NL** – *Overheid (AP/Justitiële Raad)*: Datalek via Ivanti-vulnerability trof personeel van de Autoriteit Persoonsgegevens en de Raad voor de Rechtspraak. Werkgerelateerde persoonsgegevens (officiële namen, e-mailadressen, telefoonnummers) zijn ingezien door derden.
8. **23-05-2025, DE** – *Retail (Adidas)*: Databreach bij een externe klantenserviceprovider. Alleen contactinformatie van klanten is gestolen (namen, e-mail); er gingen geen wachtwoorden of betalingsgegevens verloren.
9. **24-11-2025, ES** – *Luchtvaart (Iberia)*: Datalek via een IT-leverancier. Klantnamen, e-mailadressen en loyaliteitsnummers van Iberia-klanten zijn mogelijk ingezien;

Important questions for our customers

01.

Do you know what **sensitive information** the organization has and where it is stored?

02.

Do you know which **GenAI services & agents** are used with which data by your employees?

03.

Do you have **control** over the **sensitive information** during sharing with **colleagues** & external **persons** and **GenAI & Agents**?

04.

Do you use different **tools** for **securing** and **monitoring** your data?

Office

With Great Power Comes Great Labeling

File Explorer

Example: Manually classify your meetings

With Great Power Comes Great Labeling Configuration

These settings apply to all Teams meetings that have this label applied.

 If you select a setting below, the options you configure will be enforced when the label is applied to a meeting. Users won't be able to change the setting in Teams. If you don't select a setting, users will be able to select it themselves when creating a Teams meeting.

☒ **Control who can bypass the lobby**

People in my org and guests

☒ People dialing in can bypass the lobby

☐ Reject anyone who can't bypass the lobby

☒ **Control who can present**

People in my org and guests

☒ **Control who can record and transcribe**

If selected, you won't be able to record meetings automatically, apply end-to-end encryption, or apply watermarks.

Organizers and presenters

☐ **Control whether meetings are recorded automatically**

If selected, you won't be able to control who can record and transcribe, apply end-to-end encryption, or apply watermarks.

☐ **Control end-to-end encryption for meeting video and audio**

If selected, you won't be able to record meetings automatically or control who can record and transcribe.

☐ **Control watermarks**

If selected, you won't be able to control who can record and transcribe or record meetings automatically.

☐ **Detect sensitive content during screen sharing**

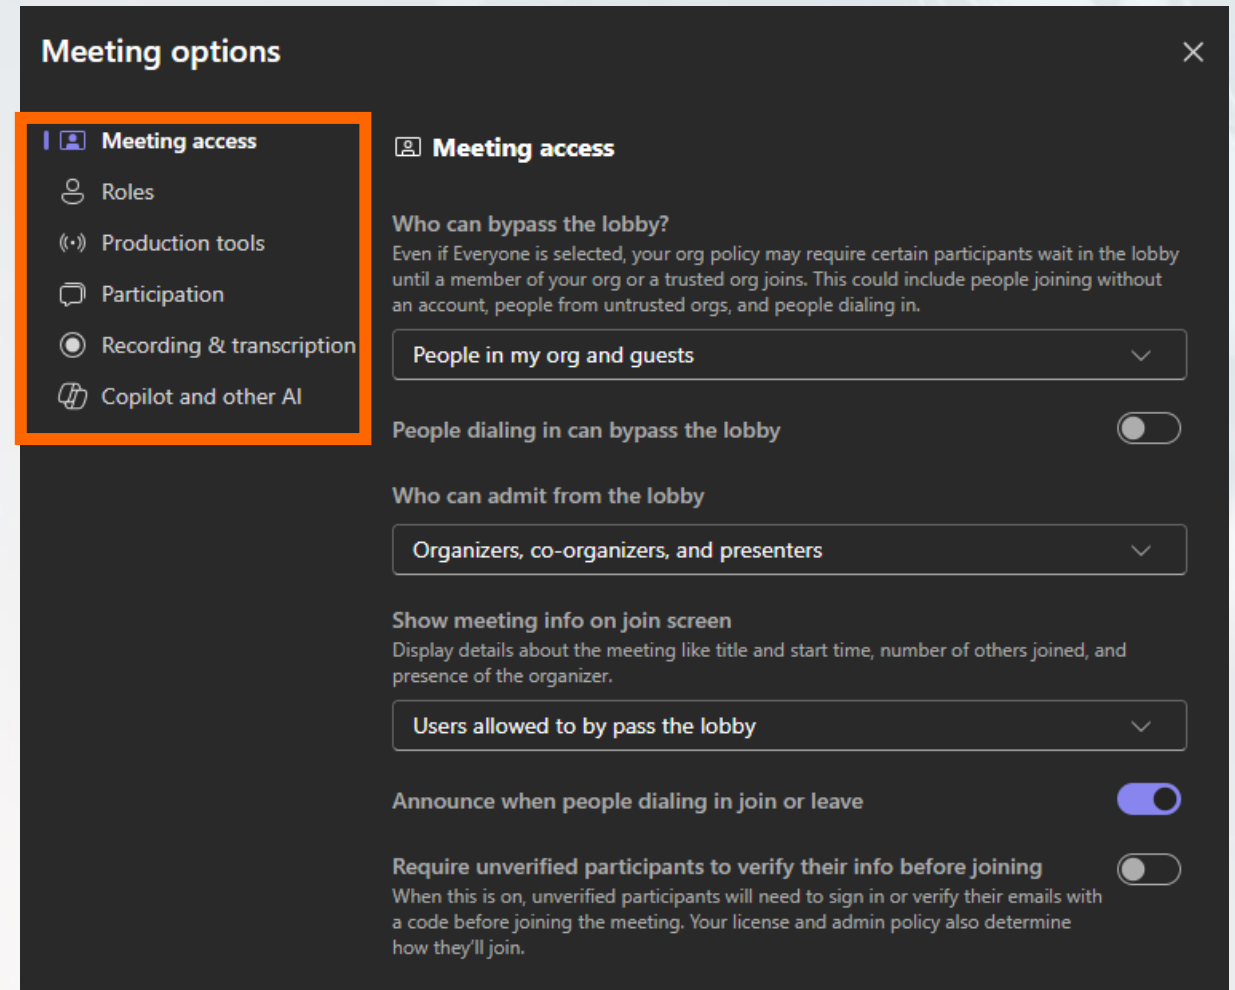

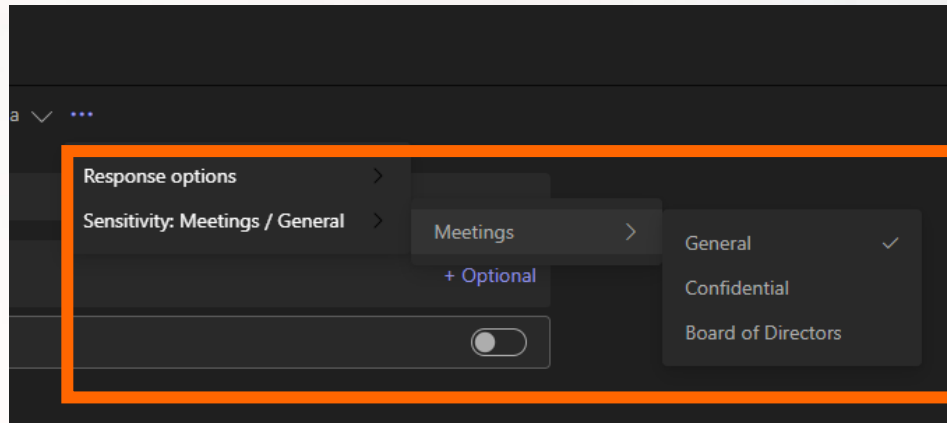

If selected, you won't be able to apply end-to-end encryption.

☒ **Control meeting chat**

Off

With Great Power Comes Great Labeling

Example

Example: Classify your sites & teams

With Great Power Comes Great Labeling Configuration (1)

Define protection settings for groups and sites

Protection settings

These settings apply to teams, groups, and sites that have this label applied. They don't apply directly to the files stored in those containers.
[Learn more about these settings](#)

☒ **Privacy and external user access**

Control the level of access that internal and external users will have to labeled teams and Microsoft 365 Groups.

☒ **External sharing and Conditional Access**

Control external sharing and configure Conditional Access settings to protect labeled SharePoint sites.

☒ **Private teams discoverability and shared channel settings**

Decide whether private teams will be discoverable in searches and control the types of teams that can be invited to shared channels.

Auto apply settings

With Great Power Comes Great Labeling

Configuration (2)

Define privacy and external user access settings

Control the level of access that internal and external users will have to labeled teams and Microsoft 365 Groups.

Privacy

These options apply to all Microsoft 365 Groups and teams that have this label applied. When applied, these settings will replace any existing privacy settings for the team or group. If the label is removed, users can change it again.

- ☐ Public
Anyone in your organization can access the group or team (including content) and add members.
- ☒ Private
Only team owners and members can access the group or team, and only owners can add members.
- ☐ None
Team and group members can set the privacy settings themselves.

External user access

- ☒ Let Microsoft 365 Group owners add people outside your organization to the group as guests. [Learn about guest access](#)

With Great Power Comes Great Labeling Configuration (3)

☒ Control external sharing from labeled SharePoint sites

When this label is applied to a SharePoint site, these settings will replace existing external sharing settings configured for the site.

Content can be shared with

- ☐ Anyone ⓘ
Users can share files and folders using links that don't require sign-in.
- ☐ New and existing guests ⓘ
Guests must sign in or provide a verification code.
- ☐ Existing guests ⓘ
Only guests in your organization's directory.
- ☒ Only people in your organization
No external sharing allowed.

☒ Use Microsoft Entra Conditional Access to protect labeled SharePoint sites

You can either control the level of access users have from unmanaged devices or select an existing authentication context to enforce restrictions.

- ☒ Determine whether users can access SharePoint sites from unmanaged devices (which are devices that aren't [Microsoft Entra hybrid joined](#) or enrolled in Intune).
 - ⓘ For this setting to work, you must also configure the SharePoint feature that blocks or limits access to SharePoint files from unmanaged devices. [Learn more](#)
 - ☒ Allow full access from desktop apps, mobile apps, and the web
 - ☐ Allow limited, web-only access ⓘ
 - ☐ Block access ⓘ
- ☐ Choose an existing authentication context. Each context has an Microsoft Entra Conditional Access policy applied to enforce restrictions. [Learn more about authentication context](#)
 - ⓘ There aren't any authentication contexts configured in your organization. [Learn how to create one](#)

Example (3)

The screenshot shows the Microsoft Copilot interface. At the top, a search bar contains the query "Who is the official creator of the DG-2000?". Below the search bar, the Copilot logo is visible. The main response area shows a summary: "You asked who the official creator of the DG-2000 is. Based on the 98 internal files reviewed ¹, here's what I found:". Below this, a section titled "Official Creator: Contoso" is highlighted with an orange border. This section contains a paragraph stating that the DG-2000 is consistently referred to as the "Contoso DG-2000" across multiple product overview documents ² ³ ⁴, and lists four key features: industry-leading battery life (900+ shots per charge), high ratings in image quality, design, and features, lifetime warranty and customer support from Contoso, and global launch and presale campaigns managed by Contoso. At the bottom of the interface, another search bar contains the query "Who are the internal contributors to the DG-2000?".

Who is the official creator of the DG-2000?

Copilot

You asked who the official creator of the DG-2000 is. Based on the 98 internal files reviewed ¹, here's what I found:

Official Creator: Contoso

The DG-2000 is consistently referred to as the **Contoso DG-2000** across multiple product overview documents ² ³ ⁴. These files describe Contoso as the manufacturer and brand behind the DG-2000 camera series, highlighting its:

- Industry-leading battery life (900+ shots per charge)
- High ratings in image quality, design, and features
- Lifetime warranty and customer support from Contoso
- Global launch and presale campaigns managed by Contoso

Who are the internal contributors to the DG-2000?

With Great Power Comes Great Labeling

Be aware!

Limitation	Description
Cannot apply labels requiring user-chosen permissions	Auto-labeling skips labels configured with “Let users assign permissions when they apply the label” because the system cannot prompt users.
No recommended labels (no user prompts)	Auto-label <i>policies</i> run service-side and cannot interact with users, so they cannot suggest labels.
Not supported in all client applications	Some Office apps and versions don’t support client-side auto-labeling.
Exchange auto-labeling does not apply to emails at rest	Auto-label policies only act on emails in transit, not those stored in mailboxes.
Labeling performance is delayed (batch processing)	Auto-labeling does not happen instantly; Microsoft processes content in batches, causing potential delays.
Risk of over- or under-labeling	Strict or loose rules can cause unnecessary labeling or missed sensitive content; tuning is required.
Does not override existing manual labels (unless configured)	By default, auto-labeling cannot replace manual labels; new override capabilities must be explicitly enabled.
Requires specific high-tier licensing	Auto-labeling requires Microsoft 365 E5, Office 365 E5, or EMS E5 licenses.
SharePoint/OneDrive labeling requires enabling sensitivity labels	Auto-labeling for files in SharePoint/OneDrive only works after manually enabling this feature.
Simulation mode required before activation	Auto-label policies must run in simulation mode first before they can begin applying labels.

With Great Power Comes Great Labeling

Permissions versus labels

SHAREPOINT & TEAMS

- Authorization required to read, create, edit or delete data.
- After the employee, or external person, has access, he or she is (current situation) able to download or share data with unauthorized persons.

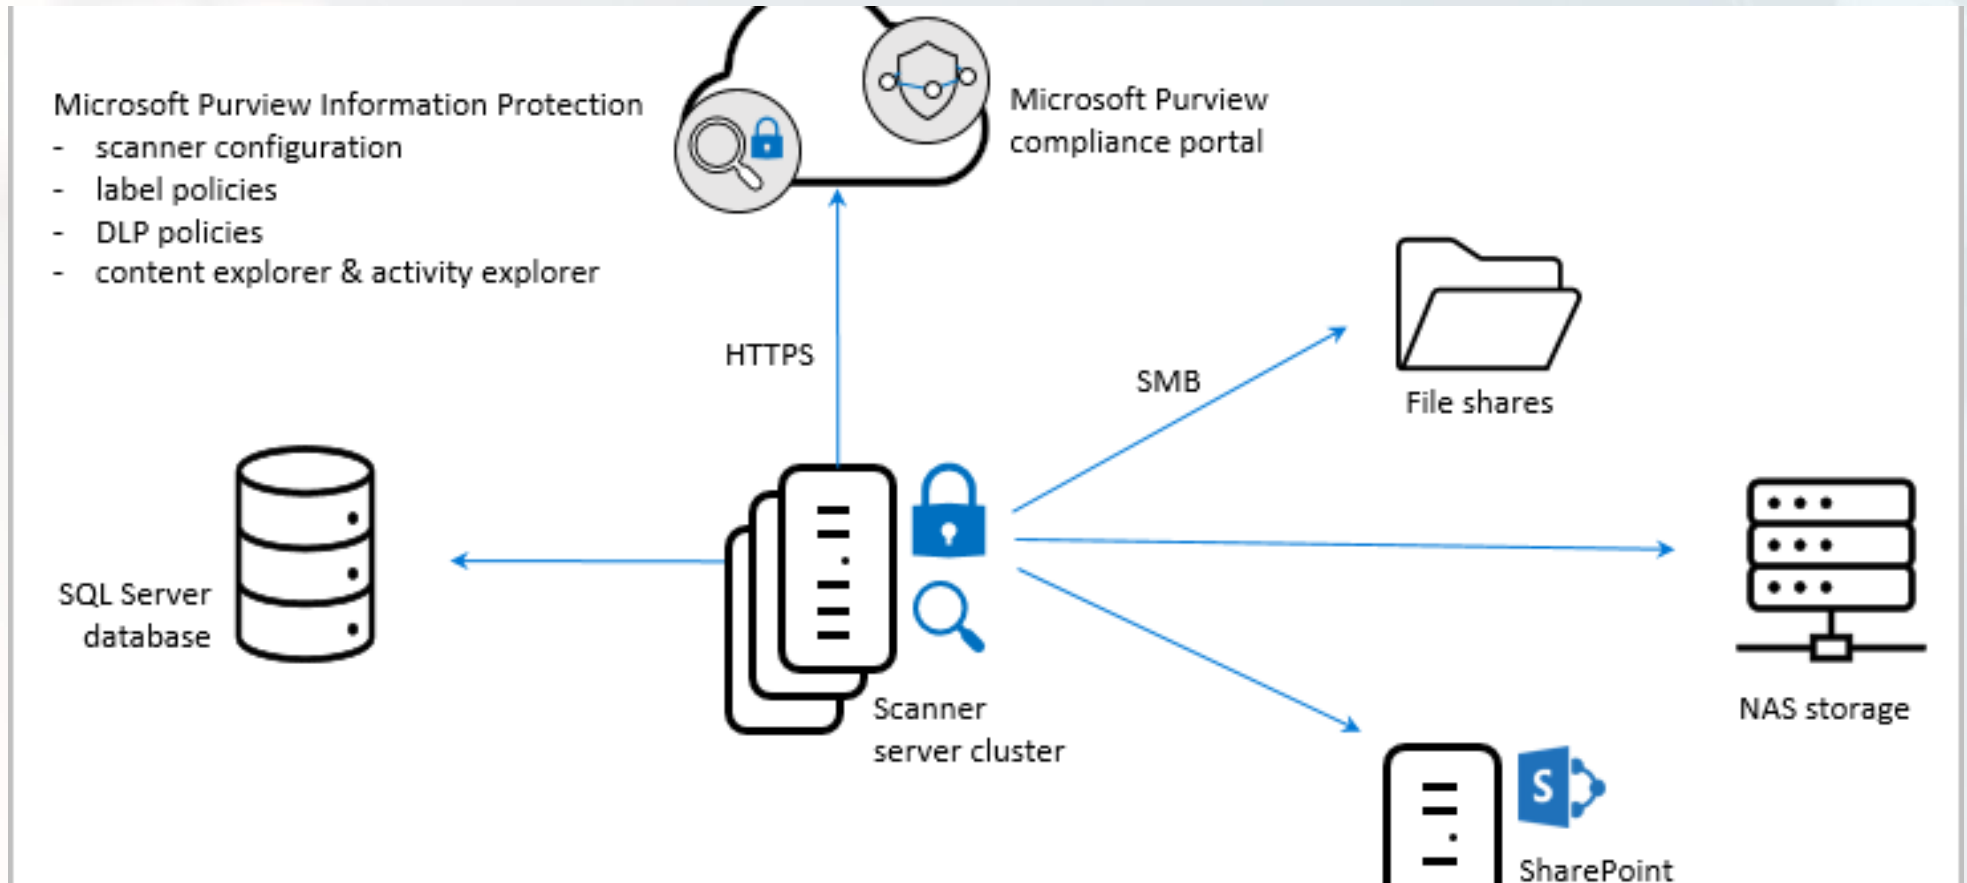

LABEL

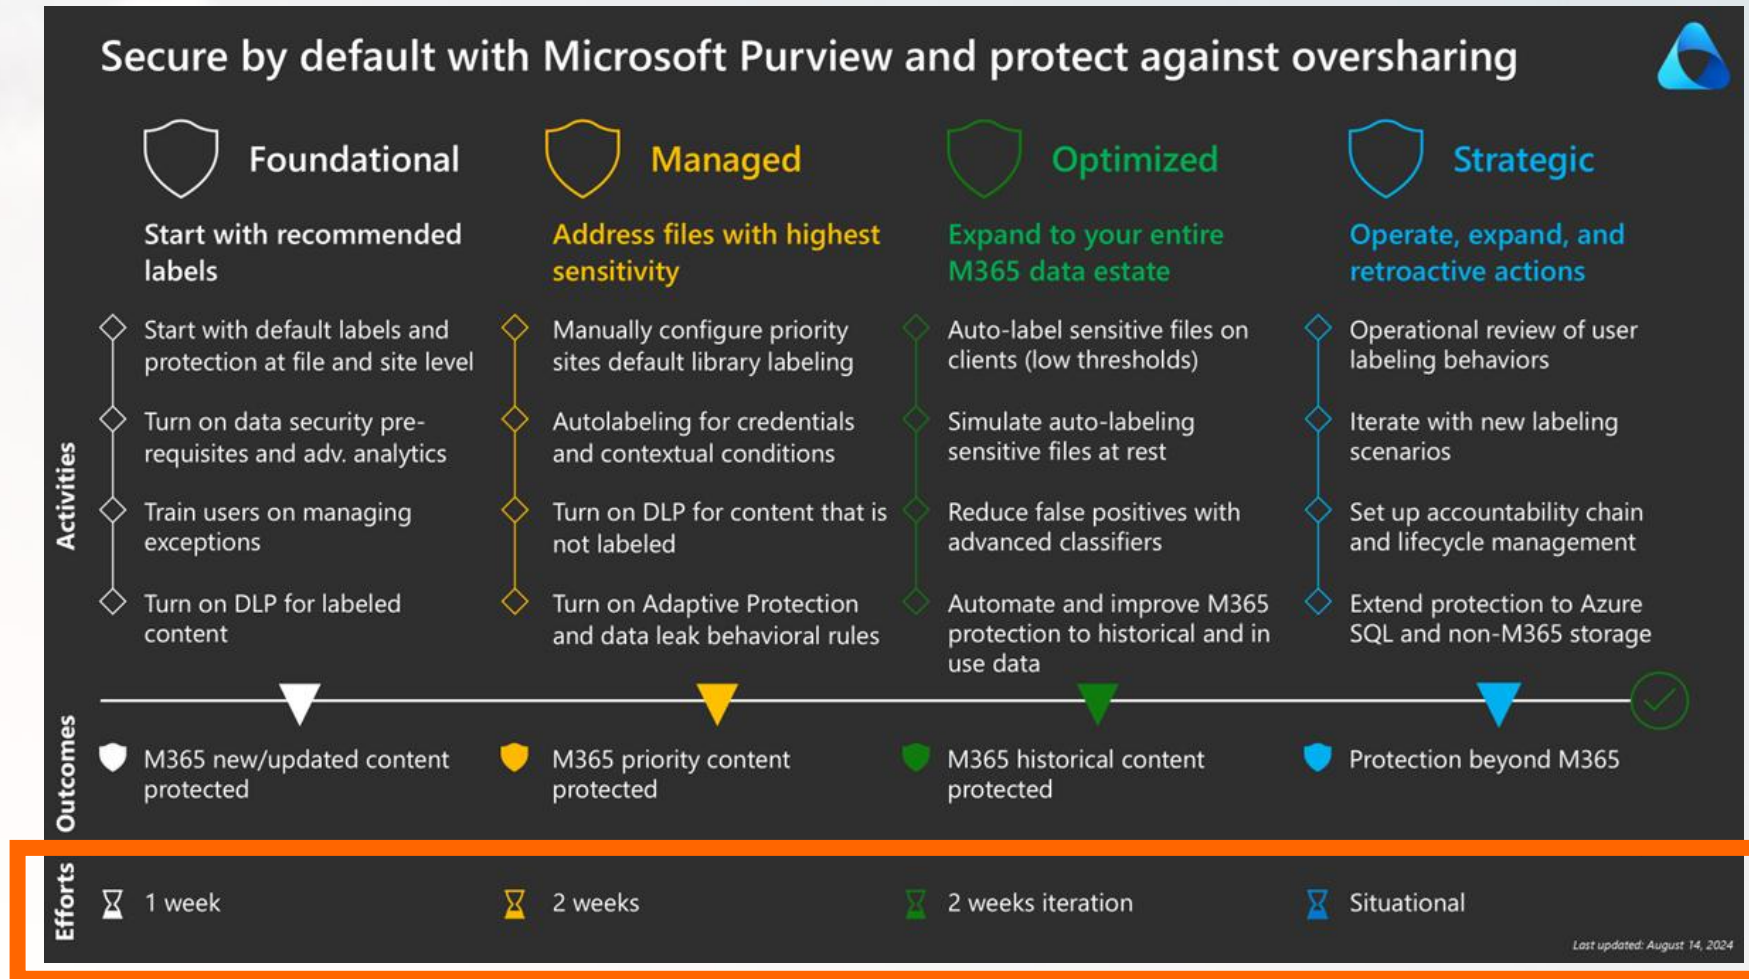

- Classifying the data according to the sensitivity and confidentiality of the content of the data.
- Label provides additional security after the data leaves its original location.
- Label is not intended as a rights tool for departments!

With Great Power Comes Great Labeling

With Great Power Comes Great Labeling Really?

Data Security 2026: Vision and Strategy

Our approach

"An accessible implementation of the classification and security policy supported by Microsoft Purview Information Protection & Data Loss Prevention."

USE-CASE	CONFIGURATION	TRAINING & SUPPORT	RESULTS & RECOMMENDATIONS
• Designate pilot departments. • Establishing classification and security policy. • Giving a workshop on classification & security with MIP & DLP. • Coordinate planning & supplies.	• Creation of configuration & demo accounts. • Assigning licenses. • Configuration Microsoft Purview MIP & DLP.	• Setting up exercises. • Creation of support pages. • Training the employees. • Providing (online) support around training & performing the exercises.	• Processing the results of the training courses and other findings • Deliver concrete recommendations for next steps.

Successful pilot of a Classification & Security Policy rollout with Microsoft Purview

With Great Power Comes Great Labeling
Thank you!
